Python Basics for Data Analytics

Haris Gulzar
AI Researcher
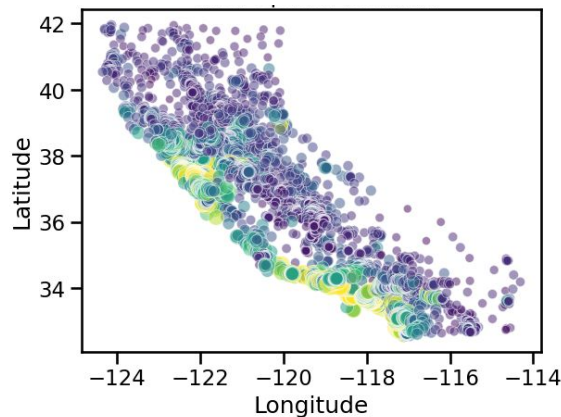

Lecture 3. Data Visualization in Python

Data Visualization in Python
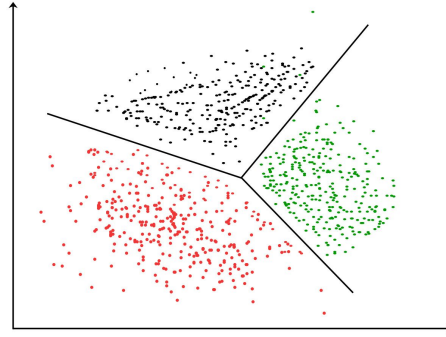

- **Some More Useful Commands for Pandas**
- **Plotting in Python**
  - **Line Plot**
  - **Bar Plot**
  - **Scatter Plot**
  - **Co-relation matrix**

- **Data Clustering in Lecture 4**

4. Data Clustering & Python for GIS Visualization

Data Clustering

Plotting and Manipulating GeoSpatial Data with Python

Example: Areas of countries on world map
